ISON
MOTORCYCLE FILTERS

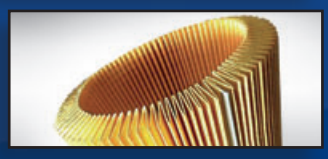
Filtri Olio ad Alta Tecnologia.

MOLLA
Realizzata con materiale eccellente, mantiene il corretto accoppiamento tra cartuccia e corpo.

VALVOLA BY-PASS
Permette il flusso d'olio di sicurezza anche in caso di alta differenza di pressione (filtro intasato).

SPIRALE
Grazie alla sua conformazione, sostiene l'elemento filtrante e consente il migliore flusso d'olio possibile.



CARTUCCIA
Le specifiche costruttive forniscono un elevato rapporto tra grado di filtraggio e durata del filtro stesso.

VALVOLA NON-RITORNO
Impedisce gli eventuali flussi di ritorno nel circuito di lubrificazione.

FONDELLO
Doppio sistema di aggancio tra piattello e corpo, per garantire la massima resistenza alle sollecitazioni meccaniche.

TENUTE
Guarnizioni a profilo quadro, evitano perdite ed assicurano i corretti flussi interni al filtro.
