INTRODUCTION

I La consapevolezza di essere leader.

Da sempre, Brembo è sinonimo di eccellenza tecnica: per questo siamo leader mondiali dei sistemi frenanti per auto, moto e veicoli commerciali.

Da oltre 50 anni equipaggiamo le automobili e le moto più prestigiose e accompagniamo i più grandi piloti nelle loro emozionanti avventure: con loro abbiamo vinto oltre 300 campionati mondiali.

In ogni settore il nostro obiettivo è sempre stato quello di superare i traguardi raggiunti e cercare nuove sfide. Per questo, il Gruppo Brembo, formato per il 10% da ingegneri e tecnici specializzati, dedica al settore R&D (Ricerca e Sviluppo) una quota crescente di investimenti.

Dall'idea che prende forma alla frenata al termine del rettilineo: tutte le fasi che portano alla realizzazione di ogni singolo elemento dell'impianto frenante sono scrupolosamente monitorate. Ricerca e design, sviluppo e test, produzione e assemblaggio, controllo della qualità e distribuzione, senza dimenticare l'assistenza: è il controllo della catena del valore un punto fermo della nostra filosofia. Tutto il processo produttivo si svolge al nostro interno, come deve essere per un Gruppo consapevole di essere leader del proprio settore. Ci consideriamo un

unico grande team che, oltre alla qualità dei propri prodotti, pone la massima attenzione anche alle prestazioni, al comfort e alla sicurezza di guida.

Ogni nuovo prodotto, ogni articolo che aggiungiamo alla nostra gamma è un nuovo successo, frutto di un severo e appassionante processo che nasce dalle simulazioni computerizzate e si conclude con la diffusione al mercato, dopo aver superato brillantemente tutti i più rigorosi test qualitativi.

UK Aware of being the leader.

Brembo has always stood for technical excellence: this fact makes us global leaders in braking systems for cars, motorcycles and commercial vehicles. For more than 50 years, we have been installing our systems on the most prestigious cars and motorcycles and we are a trusted companion of the greatest drivers and riders in their thrilling adventures. We have shared victory in over 300 world championships by their side. On all levels, our goal is always to further past achievements and seek out new challenges. This is the reason why the Brembo Group, whose staff is formed by 10% of specialized engineers and technicians, invests heavily in Research & Development.

From the hatching concept to the final brake on the tar-mat: we closely monitor all the steps that lead to the manufacture of each single component of the braking system. R&D, testing, production and assembly, quality control and distribution, without forgetting customer service: close monitoring of the value chain from start to finish is a guiding principle of our philosophy.

We carry out all manufacturing processes in-house, as it should be for a Group that is aware of its leadership in the industry. We think of ourselves as one big team that, besides focusing on product quality, also dedicates its attention to performance, comfort and driving safety.

Every new product, every article that we add to our offer is a new success, the fruit of hard work and passion born out of computerized simulations and that ends with market placement, after having brilliantly passed the most stringent of quality tests.

F

La conscience d'être un leader.

Brembo est depuis toujours synonyme d'excellence technique : c'est la raison pour laquelle nous sommes le leader mondial des systèmes de freinage pour voitures, motos et véhicules utilitaires.

Depuis plus de 50 ans, nous équipons les voitures et les motos les plus prestigieuses et nous accompagnons les plus grands pilotes dans leurs passionnantes aventures : nous avons gagné avec eux plus de 300 championnats du monde.

Quel que soit le domaine, notre objectif a toujours été d'aller au-delà des objectifs atteints et de relever de nouveaux défis. C'est pourquoi le Groupe Brembo, formé à 10% d'ingénieurs et de techniciens spécialisés, réserve au secteur R&D (Recherche et Développement) une part croissante d'investissements.

De l'idée qui prend forme jusqu'au freinage au bout de la ligne droite : toutes les phases permettant de réaliser chaque élément du système de freinage sont scrupuleusement contrôlées. Recherche et design, développement et essais, fabrication et assemblage, contrôle de la qualité et distribution, sans oublier l'assistance : le contrôle de la chaîne de valeur est un point clé de notre philosophie.

Tout le processus de production se déroule au sein de l'entreprise, une condition sine qua non pour un Groupe conscient d'être le leader de son secteur. Nous nous considérons comme une seule grande équipe qui réserve le maximum d'attention non seulement à la qualité de ses produits, mais aussi aux performances, au confort et à la sécurité au volant.

Tout nouveau produit, tout article que nous ajoutons à notre gamme est un nouveau succès, fruit d'un processus à la fois rigoureux et passionnant, qui naît des simulations informatisées et s'achève par la diffusion sur le marché, après avoir brillamment passé tous les tests qualitatifs les plus sévères.

INTRODUCTION

Das Bewusstsein Marktführer zu sein.

Bei Brembo steht technische Exzellenz seit jeher im Mittelpunkt: Es darf also nicht verwundern, dass wir Weltmarktführer bei Bremsanlagen für PKW, Motorräder und Nutzfahrzeuge sind.

Seit über 50 Jahren statteten wir die renommiertesten Automobil- und Motorradmarken aus und begleiten die besten Fahrer bei ihren sensationellen Unternehmungen: gemeinsam mit ihnen haben wir über 300 Weltmeisterschaften gewonnen.

In jedem Bereich sind wir darauf fokussiert, über die erreichten Zielsetzungen hinaus neue Herausforderungen anzustreben. Deshalb investiert die Brembo Gruppe, die zu 10 % aus Fachingenieuren und technischen Spezialisten besteht, einen wachsenden Anteil ihres Kapitals in die Forschung und Entwicklung.

Von der Idee, die Form annimmt, bis zum Bremsmanöver am Ende der Geraden: Alle Phasen, die zum Entstehen jedes einzelnen

Elements der Bremsanlage führen, werden genauestens überwacht. Forschung und Design, Entwicklung und Tests, Produktion und Montage, Qualitäts- und Vertriebskontrolle, nicht zu vergessen der Kundendienst: Die Kontrolle der Wertschöpfungskette ist ein Fixpunkt unserer Philosophie.

Der gesamte Produktionsprozess erfolgt werksintern, wie es bei einer Gruppe sein muss, die sich dessen bewusst ist, Marktführer des eigenen Wirtschaftszweigs zu sein. Wir sind ein einzigartiges, großartiges Team, das nicht nur größten Wert auf die Qualität seiner Produkte, sondern auch auf die Leistung, den Komfort und die Fahrsicherheit legt.

Jedes neue Produkt, jeder neue Artikel unseres Angebots stellt ein neues Erfolgsmoment im Rahmen eines ebenso strengen wie anregenden Prozesses dar, der bei komplexen Computersimulationen ansetzt und nach Erfüllung akkurater Qualitätstests mit der Vermarktung endet.

La conciencia de ser líder.

Brembo desde siempre es sinónimo de excelencia técnica: por esto somos líderes mundiales de sistemas de frenos para automóvil, moto y vehículos comerciales. Llevamos más de 50 años equipando las motos y los automóviles más prestigiosos y acompañando a los mejores pilotos en sus aventuras emocionantes: con ellos hemos ganado más de 300 campeonatos mundiales.

En todos los sectores nuestro objetivo es siempre lograr las metas y buscar nuevos desafíos. Por esto el Grupo Brembo, un 10% del cual está conformado por ingenieros y técnicos especializados, dedica al sector de I&D (Investigación y Desarrollo) una cuota creciente de inversiones.

Desde la idea que va concretándose hasta la frenada al final de la recta: todas las fases que llevan a realizar cada uno de los elementos del sistema de frenos han sido cuidadosamente controladas. Investigación y diseño, desarrollo y pruebas, producción y ensamblaje, control de calidad y distribución, sin descuidar el servicio técnico: un punto firme de nuestra filosofía empresarial es el control de la cadena de valor.

Todo el proceso productivo lo realizamos en nuestras propias instalaciones, como debe ser para un Grupo consciente de ser líder de su sector. Nos consideramos un único grande equipo que, además de la calidad de sus productos, dedica la máxima atención también a las prestaciones, al confort y a la seguridad a la hora de conducir.

Cada nuevo producto, cada artículo que añadimos a nuestra gama es un nuevo éxito, resultado de un proceso severo y apasionante que empieza por las simulaciones informáticas y termina con la puesta en comercio, después de haber pasado sobresalientemente todas las pruebas de calidad más rigurosas.

TECHNICAL SPECIFICATIONS

Dischi Brembo

Pur essendo un componente della moto apparentemente semplice, il disco freno richiede esperienza e tecnologia per la sua realizzazione, in quanto parte fondamentale di un sistema che, nonostante le forti sollecitazioni termomeccaniche, deve garantire sicurezza, affidabilità e prestazioni in tutte le condizioni d'utilizzo. Per queste ragioni vi consigliamo di controllare periodicamente lo stato dei vostri dischi e, quando necessario, provvedere alla loro sostituzione. Brembo, azienda leader nel campo degli impianti frenanti, offre una linea completa di dischi in grado di soddisfare qualsiasi necessità:

Dischi freno Serie Oro

Perfettamente intercambiabili ai dischi di serie, sono la scelta dei motociclisti che non vogliono rinunciare alla qualità Brembo.

Caratteristiche costruttive

Dischi freno "Flottanti"

Sono composti dalla fascia frenante in acciaio Inox utilizzato anche per le applicazioni dei dischi originali Brembo, collegata attraverso 10 nottolini di trascinamento alla campana realizzata in lega di alluminio, lavorata CNC e successivamente anodizzata. I dischi "flottanti" Brembo, in virtù dell'impiego di materiali di altissima qualità, forniscono prestazioni di assoluta eccellenza.

Dischi freno "Fissi"

Sono realizzati in acciaio Inox in un unico pezzo, secondo una linea progettuale e costruttiva che assicura un'esecuzione perfetta: le tolleranze strettissime imposte ed i cicli di lavorazione scelti garantiscono ai dischi "fissi" Brembo caratteristiche di planarità e concentricità che li pongono al top della scelta.

Nota: I **Serie Oro** seguono le caratteristiche costruttive dei dischi originali, quindi se la moto monta di serie un disco flottante anche il ricambio sarà così costruito. Per facilitare la scelta, le prime due cifre del codice identificano la tipologia del disco: 78 per i flottanti, 68 per i fissi.

Brembo Discs

It might appear to be one of the more simple parts on a motorcycle, but the brake disc requires considerable experience and technology to manufacture, given its role as a key component in a system exposed to strong thermo-mechanical stresses, yet expected to guarantee safety, reliability and performance under any operating conditions. With this in mind, we recommend that you check the state of your discs periodically, and be sure to replace them when necessary. Brembo, world-leading designer and manufacturer of brake systems, offers a comprehensive range of discs that will meet any and every need:

Serie Oro brake discs

100% interchangeable with standard discs, these are the choice of motorcyclists familiar with Brembo quality and willing to accept nothing less.

Features of construction

'Floating' brake discs

In this design, the disc proper is made of the same steel used for Brembo original equipment and connected by way of 10 drive pins to a hub flange cast from light aluminium, machined on CNC equipment and then anodized. Brembo 'floating' discs are manufactured from materials of the highest quality and deliver performance second to none.

'Fixed' discs

Fashioned in one piece from stainless steel, these are discs designed and constructed to produce a faultlessly engineered package: ultra-close manufacturing tolerances and selected machining cycles guarantee flatness and concentricity that will recommend Brembo 'fixed' discs to the most discerning of motorcyclists.

Note:

Serie Oro discs are made to the same design as their OE equivalent; accordingly, if the machine came with a floating disc, then the Gold Series replacement will also be a floating disc.

For easy identification, the first two digits of the part number indicate the type of disc: 78 for floating, 68 for fixed.

TECHNICAL SPECIFICATIONS

F

Disques Brembo

Bien que pouvant sembler un composant apparemment simple de la moto, le disque de frein exige expérience et technologie pour sa réalisation, puisqu'il s'agit d'une pièce fondamentale d'un système qui doit garantir, malgré de fortes contraintes thermodynamiques, la sécurité, la fiabilité et les performances dans toutes les conditions d'utilisation. C'est pour cette raison que nous vous conseillons de contrôler périodiquement l'état de vos disques et, si nécessaire, de les remplacer. Brembo, entreprise leader dans le domaine des systèmes de freinage, offre une gamme complète de disques en mesure de satisfaire toute nécessité :

Disques de frein Serie Oro

Pouvant remplacer parfaitement les disques de série, c'est le choix des les motocyclistes qui ne veulent pas renoncer à la qualité Brembo.

Caractéristiques de construction

Disques de frein « flottants »

Ils sont formés par une bande circulaire de freinage en acier inox également utilisé pour les disques Brembo originaux, reliée au moyen de 10 masselottes d' entraînement à la cloche réalisée en alliage d'aluminium, usinée sur une machine à CNC et ensuite anodisée. Du fait de l'emploi de matériaux de très haute qualité, les disques « flottants » Brembo fournissent des performances de premier plan.

Disques de frein « fixes »

Ils sont réalisés en acier inox d'une seule pièce, selon une ligne de conception et de construction qui assure une exécution parfaite : les tolérances très étroites imposées et les cycles d'usinage choisis garantissent aux disques « fixes » Brembo des caractéristiques de planéité et de concentricité qui en font le meilleur choix.

Note : les disques **Serie Oro** ont les mêmes caractéristiques de construction que les disques d'origine ; ainsi, si la moto est équipée de série d'un disque flottant, la pièce détachée sera elle aussi construite de cette manière.

Pour faciliter le choix, les deux premiers chiffres de la référence identifient le type de disque : 78 pour les disques flottants, 68 pour les disques fixes.

Brembo Bremsscheiben

Die Bremsscheiben eines Motorrads scheinen auf den ersten Blick einfache Komponenten zu sein; für deren Herstellung sind jedoch reichlich Erfahrung und technologische Versiertheit erforderlich, da sie die wesentlichen Bestandteile eines Systems sind, die angesichts der hohen thermomechanischen Belastungen Sicherheit, Zuverlässigkeit und Leistung unter jeder Fahrbetriebsbedingung garantieren müssen. Aus diesen Gründen empfiehlt es sich, regelmäßig den Zustand der Bremsscheiben zu kontrollieren und bei Bedarf deren Austausch zu veranlassen. Brembo, das führende Unternehmen im Bereich der Bremsanlagen für Motorräder, verfügt über ein in jeder Hinsicht komplettes Angebot an Bremsscheiben, die entsprechend ausgelegt sind, um jede Anforderung zu erfüllen:

Bremsscheiben Serie Oro

Für diese anstelle aller gängigen Serienmodelle montierbaren Bremsscheiben entscheiden sich diejenigen Motorradfahrer, die auf keinen Fall auf Brembo Qualität verzichten möchten.

Bautechnische Eigenschaften

„Schwimmend gelagerte“ Bremsscheiben

Diese Bremsscheiben bestehen aus einem Bremsband aus dem selben Edelstahl von den ursprünglichen Brembo Scheiben, das über 10 Mitnehmerbolzen mit dem Innenteil aus CNC-bearbeiteter und anschließend eloxierter Aluminiumlegierung verbunden ist. Die „schwimmend gelagerten“ Bremsscheiben von Brembo bieten dank der Fertigung mit Materialien höchster Qualität absolute Spitzenleistungen.

„Einteilige“ Bremsscheiben

Diese in einem Stück gefertigten Bremsscheiben aus Edelstahl werden nach einem Verfahren hergestellt, das an Perfection seinesgleichen sucht: Die bewusst eng

gehaltenen Toleranzen und die ausgewählten Bearbeitungszyklen garantieren den „einteiligen“ Brembo Bremsscheiben nahezu unvergleichliche Ebenheits- und Konzentritätseigenschaften.

Hinweis: Die Modelle der **Serie Oro** entsprechen bautechnisch den Original-Bremsscheiben, d.h., ist das Motorrad serienmäßig mit einer schwimmend gelagerten Bremsscheibe versehen, wird das Ersatzteil analog dazu hergestellt. Um die Auswahl zu erleichtern, geben die ersten zwei Ziffern des Codes den Bremsscheibentyp an: 78 für schwimmend gelagerte bzw. 68 für einteilige Bremsscheiben.

TECHNICAL SPECIFICATIONS

Discos Brembo

Más allá de su aparente sencillez, un disco de freno requiere experiencia y tecnología en su realización, por ser un componente fundamental de un sistema sujeto a considerables esfuerzos termomecánicos que debe garantizar seguridad, fiabilidad y altas prestaciones en cualquier condición de uso. Por estas razones, recomendamos controlar periódicamente el estado de los discos y sustituirlos cuando sea necesario. Brembo, empresa líder en el sector de los sistemas de freno, ofrece una línea completa de discos capaces de responder a cualquier necesidad:

Discos de freno Serie Oro

Perfectamente intercambiables con los discos de serie, son la elección de los motociclistas que no están dispuestos a renunciar a la calidad Brembo.

Características constructivas

Discos de freno “Flotantes”

Compuestos por una banda de freno del mismo acero inoxidable utilizado para las aplicaciones de discos originales Brembo, conectada a través de 10 pasadores a la campana, realizada e aleación de aluminio mecanizada por CNC y posteriormente anodizada. Gracias al empleo de materiales de altísima calidad en su fabricación, los discos “flotantes” Brembo aseguran prestaciones de absoluta excelencia.

Discos de freno “Fijos”

Realizados en un único bloque macizo de acero inoxidable, con una línea de proyecto y construcción que asegura una ejecución perfecta: las estrictas tolerancias y los ciclos de mecanizado elegidos garantizan a los discos “fijos” Brembo características de planaridad y concentrividad que los colocan en la cumbre de la gama.

Nota: Los **Serie Oro** siguen las características constructivas de los discos originales. Por lo tanto, si la moto se suministra de serie con un disco flotante, el repuesto estará construido de la misma manera.

Para facilitar la elección, las primeras dos cifras del código identifican el tipo de disco: 78 en los flotantes, 68 en los fijos.

The diagram illustrates a front disc brake assembly. Dimension A is the total width of the disc, dimension B is the thickness of the disc, dimension C is the distance from the center to the outer edge, dimension D is the diameter of the central hole, and dimension E is the distance from the center to the inner edge.
